Recommendations were made to shorten the archery courses for juniors and subjunior. More help will be required for the field archery course next year. The general consensus was to arrange the archery event so that it was completed by noon. The need to limit time allowed to recover arrows was identified. Archers need to tally their own score sheets.

Other desired improvements identified were: reduce the difficulty of the air rifle silhouette match, reduce pellet bounce back for air rifle silhouette match, improve lighting for the air rifle silhouette match, have more cold water and trash containers available, identify opportunities for more parents to become involved, provide a more detailed safety score sheet to the safety judges, and to have radios available for the archery event.
